

FAQ's

■ What is a hackathon?

- ▣ A hackathon is a comprehensive event where each team is given a platform to develop an idea to produce a solution for a real world problem statement.

■ How do I register?

- ▣ Participants can register themselves for the hack through vithack.com

■ Is there a registration fee required for participation?

- ▣ VITHack is free of cost as we aim to give every student an equal opportunity to develop on their ideas and enhance their skill sets.

■ How many members are required in a team?

- ▣ An ideal team would consist of at most 6 members and at least 3 members to be qualified as a team.

■ Will participants get to interact with industrial experts during the hack?

- ▣ Yes. Continuous mentoring would be provided by industrial experts to help you improvise on your project and pitch the idea better. After all, VITHack is not just a hackathon, rather a hub where innovative minds think alike.

■ Are all the three days of VITHack a continuous hackathon?

- ▣ No. The first day is a boot camp where the participants get to interact and network with industrial experts and gain exposure after which the hackathon begins on the second day.

■ What are the accommodation facilities offered for external participants?

- ▣ Travel and accommodation for external participants is taken care of partially by VIT Hack.

■ Are there any restrictions regarding the submission for the hack?

- ▣ If your project can be implemented by either a technical application or a hardware prototype, it is considered as a legitimate submission.
